SPRINGFIELD MUTUAL
HEALTH INSURANCE COMPANY.
SPRINGFIELD, MASS.,
GEO. H. NORMAN, Agent.

THIS institution is conducted on the mutual principle, so far as to admit the parties insured to an equal participation in the profits of the company.

It insures to male and female persons between the ages of fifteen and sixty years, a *weekly* income at the rate of 100 per cent, upon amounts *annually* deposited; in cases of disqualification for business by reason of sickness or accident. For instance, a person paying $5 a *year*, insures to himself $5 (or 100 per cent.) for every *week's* illness within that year. These benefits are independent of whatever dividends may annually accrue to the insured.

The rates of annual payments by the members are as follows:

$2 00	per Annum,	draws	$2 00	per week,	
3 00	"	"	3 00	"	"
4 00	"	"	00	"	"
5 00	"	"	00	"	"
6 00	"	"	00	"	"
7 00	"	"	7 00	"	"
8 00	"	"	8 00	"	"

Persons desirous of providing against protracted sickness, and who will except the first week, will be taken 25 per cent less, viz:

$1 50	per Annum,	draws	$2 00	
2 25	"	"	"	3 00
3 00	"	"	"	4 00
3 75	"	"	"	5 00
4 50	"	"	"	6 00
5 25	"	"	"	7 00
6 00	"	"	"	8 00

The main design of this company is to enable prudent and discreet persons of small means, to make provision while in health, by a trifling outlay, against the aggravated sufferings that inevitably invade a sick bed, in seasons of pecuniary privation and of inability to labor. A vast amount of human wretchedness has been prevented or mitigated, within the present generation, by the establishment, in Europe, of similar provident institutions: and within a short period, this system of Health Insurance has been introduced into our own country, with results, thus far, equally beneficial to all whose relief it contemplates—more especially to those who toil daily for their daily bread, and to whom any interruption by sickness becomes a serious and distressing calamity.

By this system, also, one person may insure the health of another—a parent that of a child, or a child that of a parent—an employer that of a workman, or of an apprentice, &c. Thus, those who are able, by a small immediate investment, may relieve themselves from the hazard of incurring heavy burthens, inflicted involuntarily by those who might otherwise become dependants upon them for continued care and support.

While the most humane and benevolent dispositions of mankind are subserved by every association of this description, its beneficiaries are exempted from being placed in the degraded condition of recipients of the bounty of others. For, by the contract into which they enter, they purchase and fairly earn all the benefits which they may demand, as a matter of just and legal right; and, if it so please Providence that they escape the affliction against which they have measurably provided, the satisfactory reflection is left, that the price of their own immunity has been applied to the comfort and succor of their less fortunate fellow beings.

It is presumed that no extended argument can be required to recommend the objects of this Company to public consideration. A perusal of the Rules and Regulations adopted by the Directors, which may be had at my office, will afford an ample insight into the principles of the Institution, and of its modes of operation.

WALTER SIMONSON,

Read the following from an eminent physician:

The undersigned being acquainted with some of the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having used it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia.

T. HARDENBERGH, M. D.,
No. 1 Beach street, N. Y.

The Proprietor of this medicine has received many other certificates of cures, equally remarkable, of the various diseases for which this preparation is applicable; but the above are deemed necessary to satisfy any unprejudiced mind of its value and superiority above all other preparations.

THE Whigs of Portsmouth are requested to meet at the TOWN HALL, on Saturday evening next, March 27th, at 7 o'clock, for the purpose of nominating candidates for Senator and Representative at the ensuing election; and also to make the necessary arrangements to secure a full vote for the Whig ticket at the April election. ☞ The Secret Ballot Law is generally so obnoxious, and is so full of blunders, that it is almost impossible to enumerate all of the latter. Suppose a voter receives his envelopes from the person who has the charge of them, and afterwards loses them.—what is to be done? The person in charge of the envelopes has no authority to take any man's assertion, of this kind, under the law,—and the law says that each voter shall only recieve such number of envelopes as he requires for his own votes,—that is, one of each kind. Again, the law says that each man shall call out his name as he comes up to the Moderater; how, then, under this law, can a deaf and dumb man vote, for such, certainly, cannot call out their names.—and yet the law makes this specific duty as the first requirement of every voter? These are some of the fruits of locofocoism, but these are only buds of promise; if the locos should carry the State this year, we shall have an abundance of the full-blown flowers. If any man loses his vote this year, it will be in consequence of locofoco folly.

☞ A petition has been presented to [illegible] State will erect monuments, wherever their ashes can be found; to those so called Witch and Wizard Martyrs, executed in the days of the Salem Witchcraft.

☞ It is stated that Essex County, Mass., is more densely populated than any other tract of land of its size in the United States. Its population in 1850 was 131,307; number of towns, 30; population to a square mile, 323.

No preparations were made to receive M. Kossuth at Memphis, Tenn., and he therefore did not stop there.

☞ The Germans, Hungarians, and Creole Cubans, that were among the captured in Cuba, have not been released. They are doomed to ten years' hard labor in the prison of Ceuta. It was only the Americans and English that have experienced the mercy of the Spanish Government.

☞ The Tribune's marvellous rapping story, of Andrew Jackson Davis's telling correctly beforehand what Dr. Bushnell was going to say in his lecture the other evening, is spoiled by the Hartford Courant, which says that Dr. Bushnell did not deliver any such lecture, and in fact has not lectured at all for more than a month!

☞ A mechanic of Cincinnati has built a fire engine to which he attaches steam. The machine was tested a few days ago, and altho' not in perfect order, steam was raised and water thrown with great rapidity in nine minutes. Five minutes is all the time claimed as essential by the patentees. The experiment was exceedingly satisfactory.

PATHETIC!—The maiden wept, and I said, "Why weepest thou, maiden?"—She answered not, neither did she speak, but sobbed exceedingly; and I again asked, "Why weepest thou?" when she said, "What's that to you—mind your own business."

THE ETHER CONTROVERSY REVIVED.—For the want of something better to do, Congress has undertaken to settle the Ether Controversy; and to get rid of a little of the surplus revenue, it is proposed to make Dr. Morton a present of $100,000. Such, at least, is understood to be the purpose of a majority of the committee to whom the matter is referred. But a minority report is also threatened, in which the ground will be taken, that Dr. Jackson is the true discoverer of the application of Ether to deaden the susceptibility to pain in surgical operations, &c. Dr. Jackson, it is said, has made no application to Congress, and only asks that it will let the matter alone, and leave it with scientific men. It is a great pity our Legislators would not take the Dr.'s advice.

A correspondent of the N. Y. Evening Post, writing from Washington, says:

"It is not true, as reported by telegraph to New York last Monday, that Dr. Johnson has been arrested here by Morton, or any body else. His lawyer has been served with notice of intended suit. Nothing more. There is a deepening indignation here against the intended majority report of the "Chloroform Committee." The thing when it shall come up, will expose more villany than one could before conceive to environ any claim for government bounty.—Dr. Jackson is here but carefully avoids any personal contact with members of Congress."

Extraordinary Sufferings of French Troops in Algiers.—The following details—translated from the *Algerien Moniteur* of Feb. 29,—will be read with melancholy interest:

A courier from the East brought to Algiers yesterday, the intelligence of the return to Bougia of the column of troops, under Gen. Bosquet, which recently obtained such complete success in an expedition against Bou-Barghela. While the troops were yet in Kabylia about 25 miles from Bougia, on the 20th of February, at night, a snow storm set in, which continued through the day of the 21st, without increasing, however, in severity, and without any threatening indications. During the night of the 21st, the wind rose almost to a gale, and the next day a storm of sleet and hail raged furiously, with a freezing wind; till at night it became a perfect tempest. The tents were blown down and covered up in the snow, and the soldiers passed a night of terrible suffering from exposure to the cold and storm.—As it would be fatal to the troops to remain stationary, the General gave orders to strike the camp, and on the morning of the 22d the column took up its line of march for Bougia, expecting to find at Torcha, fifteen miles distant, a place of shelter and means of relief from their sufferings. [illegible] with all possible pre-[illegible] But difficulties increased at every step. The route, newly opened, was obstructed by snow, to a great depth, and it was impossible to keep the right path. The troops suffered greatly from cold and fatigue, and numbers perished, and were left by the way.

The rear-guard, with Gen. Bosquet, on arriving at Torcha at 6 o'clock on the morning of the 23d,—having marched fifteen miles only in twelve hours,—found that the head of the column, instead of bivouacking at Torcha, according to orders, had continued on towards Bougia. Passing the night in camp at Torcha, Gen. Bosquet, with his detachment, proceeded next morning to Bougia, which was reached just at night-fall. It was found that the advance-guard had suffered excessively in their ill-advised march, and that they had reached Bougia in a straggling and disastrous condition. The first of them who reached the town, spread the intelligence of the suffering of their companions, and steps were immediately taken to send them mules and horses, and to render them every possible assistance. The people proceeded with torches to the relief of the unfortunate soldiers; houses were opened to receive them as they arrived; fires were lighted in the streets; and soup and hot wine were prepared for the freezing and famishing men.

The number who lost their lives in this dreadful march and exposure, is not stated. Only one officer—a surgeon—is known to have perished. The five Kabyle guides who accompanied the column were frozen to death. About twenty horses and mules were overcome by the severity of the storm, and with their baggage were buried in the snow. Nearly three hundred men, more or less injured by the cold and the fatigues to which they had been exposed, were placed in the hospital at Bougia.—When the courier by whom this intelligence was brought to Algiers, left Bougia, it was estimated that one hundred of the soldiers were missing.

THIRTY SECOND CONGRESS

WASHINGTON, March 24.

SENATE.—The Senate met at half-past 12.

Mr. Clarke, of Rhode Island, presented a memorial in favor of the publication of the memoirs and papers of General Greene, of revolutionary memory.

He briefly advocated the same, after which the memorial was referred to the library committee.

Mr. Sumner, of Massachusetts, submitted a memorial from Robert G. Shaw & Co., and other merchants of Boston, in favor of a cheap system of ocean postage.

Mr. Soule, of Louisiana, introduced petitions from New Orleans on the same subject.

Mr. Bradbury presented a petition from the citizens of Portland, numerously signed, praying government aid to the Collins line of steamers.

Also, a memorial from a number of citizens of Maine for the same object.

Mr. Seward submitted a petition from the New York State Agricultural Society, in favor of the establishment of an agricultural bureau.

Mr. Mallory introduced another proposition for a railroad from the Mississippi River to the Pacific Ocean.

HOUSE.—Mr. Hall asked the introduction of a resolution that the President inform the House what amount had been expended per man, for forage, for the transportation of the army in New Mexico, during the late war.

Also the amounts since the war. Both of which were objected to.

Mr. Florence offered a resolution that the committee on commerce inquire into the expediency of stating the number, character and position of the signal lights to be displayed by vessels in the waters of the United States.

The resolution was adopted.

The House then, on motion, resolved itself into committee of the whole on the deficiency bill.

ARE WE JOLLY, OR ARE WE NOT?—That the wisest and best men sometimes disagree was first remarked, we believe, by a celebrated Roman Consul; but its truthfulness has recieved its latest illustration in the case of two eminent living statesmen, each of whom is willing to be an American Consul after the Roman model. Messrs. Cass and Buchanan have each recently made a public expression of their views of the conditions and prospects of the Democratic party; from which we make the following extracts:

Gen. Cass in a letter to young men of Baltimore.	*Mr. Buchanan to friends in Baltimore.*
"The political prospects are *so bright* that they cannot but add to the social pleasure of the evening; for the decree has gone forth that the next Administration of the General Government must be in the hands of	"If I rightly read the signs of the times, there has seldom been a period when the Democratic party of the country, to which you and I are warmly attached, was in *greater peril* than at the present moment."

Now, the question is, is the Democratic party in peril, or is it not? Are we jolly, or are we not?

If the various candidates for the Presidency will give the public their opinions upon this critical question, it will facilitate the selection for a candidate. If we read the signs of the times right, no man can be nominated at Baltimore who is not sound upon this question. A generous latitude will be allowed on every other, but there must be no dodging the issue here presented by these two eminent statesmen. Is the Democratic party jolly, or is it not?—*New York Evening Post.*

A Robber's Mistake.—A lady in Louisville, Ky., was robbed a few nights since by a fellow who secreted himself in her chamber until she had retired. The box containing her jewelry, and that containing her rouge was just alike, and the thief took the wrong box. She looked pale on discovering her loss, but her color came again the next day.

The question of electing an United States Senator for a full term, commencing with March, 1853, is still agitated in the Legislature of Mississippi. On the 9th instant the Senate of that State, by a vote of 15 to 8, passed a resolution declaring it inexpedient and improper at this session of the Legislature to go into the election for this Senator; whilst the House, on the same day, passed a joint resolution, by a vote of 52 to 51, to proceed to the election of Senator on the 11th instant.

CINCINNATI, March 24th.

The Kossuth resolutions before the Legislature of Louisiana condemn the arrogance of Kossuth to the officers of the Mississippi—and agree to receive him as an advocate of freedom, (but not as a guest) providing he disavows ridiculing Hon. Henry Clay.

HOW TO MAKE A FORTUNE.—Take earnestly hold of life, as capacitated for, and destined to, a high and noble purpose. Study closely the mind's bent for labor or a profession. Adopt it early, and pursue it steadily, never looking back to the turning furrow, but forward to the new ground that ever remains to be broken. Means and ways are abundant to every man's success, if will and actions are rightly adapted to them. Our rich men, and our great men, have carved their paths, to fortune, and by this eternal principle—principle that cannot fail to reward its votary, if it be resolutely pursued. To sigh or repine over the lack to inheritance, is unmanly. Every man should strive to be a creator instead of inheritor. He should bequeath instead of borrow. The human race, in this respect, want dignity and discipline. It prefers to wield the sword of valorous forefathers, to forging its own weapons. This is a mean and ignoble spirit.

EXCRUCIATING.—A few days since, a member of the Baptist Church, not a hundred miles from Dedham, (who by the way is an advocate and petitioner for the Maine Liquor Law in this State) while seated in the cars, with some of the brethren, by some mishap broke a very tender flask filled with the best of Schiedam. It was enveloped in two weekly papers, purchased for the purpose of concealment, and to his great mortification, was obliged to traverse the length of the car, with his pocket weeping tears of *gin*, and eject the tell-tale fiend from the platform to the culvert.—*Boston Herald.*

New Capital Punishment.—Some wag in New York suggests that it would have been well for Gov. Hunt to have commuted the sentence of Grunzig, who has just been hung, to transportation over the Erie Railroad—*so as to give one chance in a hundred for his life!*

Now use the more.
REDUCED FROM ONE DOLLAR,
TO FIFTY CENTS PER BOTTLE!
THIS justly celebrated and widely known compound which for sixteen years has met with distinguished success wherever it has been introduced, is now reduced to such a low price, as will enable it to be within the reach of all, as it is the cheapest and best article now in use. Its curative properties are almost miraculous: Scald Head, Salt Rheum, stings of insects, and all the numerous train of disagreeable cutaneous eruptions disappearing as if by magic.
ITS STRENGTHENING AND STIMULATING qualities are unrivalled, rousing into action the nerves and blood vessels, which carry nutriment, imparting health to this greatest of nature's adornments (a beautiful head of hair) to the latest period of life.
FOR ERADICATING DANDRIFF it is unsurpassed. Cleansing the skin completely of every impurity, leaving the hair neither greasy, or dry, but moist soft and silky. It is superior to oil to dress the hair, as it does not soil the hat, or head dress and keeps it longer moist.
THE TRICOPHEROUS has gradually risen in favor with the public, by its own merits, and is not like the puffed and ephemeral compositions existing to day, and swallowed in oblivion to morrow, until it has become one of the staples of life, and looked for by all as one of the necessaries of the toilet and medicine chest.
The known popularity of the Tricopherous has occasioned many spurious articles, bearing outwardly the same name and character. Ladies, and Gentlemen purchasing must therefore be careful to ask for CLIREHUGH'S TRICOPHEROUS.

MUTUAL BENEFIT ASSOCIATION
OF NEW ENGLAND.
Organized March 1, 1852.
TO AID EMIGRATION TO CALIFORNIA.

THIS Association organized to enable persons with limited means, for a small sum, to receive a first class passage to the "Golden Regions," knowing that many of the most enterprising of New England not having the means to pay the high price charged for passage, and still have the desire for the same change to apply their energies and labor with others who may have more capital. To such of the community, the Association would respectfully invite attention to the following, viz:—

The subscriptions to the M. B. A. of N. E. for emigration to California, will be Five Dollars, for which each subscriber will receive a work, now in press, containing the history of the State, the mines, resources, &c., &c., a work of interest and value, for its true and faithful description of the Golden Land, to which all persons look with interesting emotions.

The Association will be limited to five thousand members in the New England States; amongst which members, will be distributed one hundred first class passage tickets in A 1 ships to California, with spacious accommodations, and giving that number a first class passage to the Gold Regions with every facility that can be offered.—By this method the Association will send out from its subscribers one hundred to California, with the best of comforts for the voyage. As it is confidently expected that the list will be closed on the first of May, all persons who wish to subscribe will please apply to the Agent of the Association. A passage ticket will be good for three months from the date of issue, and transferable. The subscribers will be publicly notified through agents, of the distribution of passage tickets, which will be forwarded to agents with necessary information.

Office of the Association No. 2 Broad street, corner of State street.

"A LITTLE KNOWLEDGE IS A DANGEROUS THING."
THIS saying has but a partial application.— A very little knowledge of the physiology of the hair teaches that want of care deprives many, of that most becoming ornament to the person. Those who would desire to preserve their heads from baldness, cure thinnesses on the scalp, prevent discoloration, and secure a glossiness and softness of texture, should use Bogle's Hyperion Fluid.
Many look upon the process of shaving as one which requires a merely mechanical attention to accomplish perfectly. It is not so. The conditions which furnish the speediest and easiest accomplishment are a healthy state of the skin, and a suitable lather to preserve its smoothness.— Bogle's Amole is the most approved article for softening and smoothing the skin, and imparting to it an elasticity inconsistent with any chance of irritation, or eruptions which follow it. Sold by Wm. Bogle's Agents.

TO THE PUBLIC.
BEING a Manufacturer and Dealer in Burning Fluid and Camphene, and in order to lay all facts fairly before the Public, I take the present opportunity of referring to the many *Dreadful Accidents from* Explosion of Camphene and Fluid Lamps and Cans, which are going the rounds in all the city Newspapers, and in explanation of the accident in *Salem*, which happened a few days ago, I copy the following from a Boston paper, which gives the following explanation of the accident:—
"It is stated that the can contained, by conjecture, about a quart of Fluid, and was placed on a shelf, at a distance of several feet from the stove in which the fire was burning. If these are facts, no explosion could ever have taken place without the introduction of fire and the atmospheric air into the Can at the same instant; It is currently reported in Salem that the unfortunate victim was in the habit, at times, of pouring or sprinkling the Fluid upon the Wood in the Stove, to facilitate the kindling of the fire,—and as this may have been done in the present instance and in the absence of all proof to the contrary, (the Mother being in an adjoining room) we have a solution of the matter."
Now by a careful examination into all accidents of this nature, you will find them caused altogether by carelessness, and, in fact, since the introduction of Camphene and Burning Fluid in this place, all accidents that have happened have been clearly proved to be the grossest carelessness, on the part of the consumers, either by filling the Lamps while burning, or leaving the Wicks out of one of the tubes, as in the case of the last accident which happened here.
Camphene and Fluid are a safe, clean and cheap article of Light; and with proper Lamps and ordinary care, are perfectly safe and will never explode, unless they are brought in contact with fire. PHILIP RIDER,
m1 171 Thames St.

Dr. Marchisi's Uterine Catholicon.
THE UNDERSIGNED, HAVING BECOME AGENTS FOR THIS INVALUABLE MEDICINE, would respectfully invite the attention of the afflicted to the signal success that has attended its use wherever introduced, and its happy adaptation to the cure of the distressing diseases for which it is offered.
This CATHOLICON is in truth one of the GREATEST MEDICAL DISCOVERIES OF THE AGE, and is destined to become identified with the health and happiness of [illegible]
FEMALES.
This declaration is based on the fact that it will cure more than nine-tenths of a class of very prevalent diseases, known as [illegible]
FEMALE COMPLAINTS,
and which have heretofore resisted the skill and exertions of the most accomplished Physicians of all countries, to a degree beyond that of almost every other malady to which the human family is heir. It has already received the approbation and liberal patronage of very many prominent Members of the Medical Faculty in the United States, willing to abide the truth, and having due regard for the welfare of their patients, and is in every way worthy the confidence of the afflicted as A SUCCESSFUL, SAFE and CHEAP REMEDY. Of this, additional proof will be found in the pamphlet, to which the attention of Ladies and Practitioners is respectfully invited.
This medicine has never been introduced by empty puffs and misrepresentations, nor is it intended that its present popularity shall be sustained by any medium but its merits and the approbation of the public. The CATHOLICON is not a "cure-all," but is intended expressly for those complaints incidental to the respectable females whether married or single—PROLAPSUS UTERI, FLUOR ALBUS, CHRONIC INFLAMMATION AND ULCERATION OF THE UTERUS, INCIDENTAL HAEMORRHAGE, PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c. with all their accompanying evils, (Cancer excepted,) no matter how severe, or of how long standing.

Prof. A. C. Barry's Tricopherous, or Medicated Compound.
THE efficiency of this justly celebrated [illegible] for invigorating, beautifying and imparting a gloss and silken softness to the hair, is proven widely known and acknowledged, that it has gained by its merit a reputation which is not for a day, but for all time. It is the privilege of science to subdue and control, those physical evils which refined civilization has brought in its train; for so long as warm rooms and tight hats with the doubled agency of other influences exist, will thousands of unhappy victims be troubled with bald heads and grey hairs, to say nothing of the various cutaneous diseases to which the head is subjected. It was to relieve these evils that Professor Barry introduced his invaluable remedy, and among the thousand and one who have [illegible] his competitors, he now stands alone on that pedestal of success, hewn out of Barry's Tricopherous, and sustained by the favor and universal patronage of a discerning and intelligent public. For restoring the hair to its original growth, or preventing it from falling out, this compound has been pronounced by all medical men to be a sure remedy. For eradicating scurf, dandruff, and curing diseases of the skin, glands, muscles, stings and bruises, the Tricopherous will always be found a safe, speedy, and unfailing cure, and so long as
"Fair tresses man's imperial race ensnare,
And beauty draws us with a single hair,"
will Barry's Tricopherous be essential to the toilet of every lady and gentleman who desire to give a soft, glossy and luxuriant appearance to the natural drapery of reason's throne. Sold in large bottles, price 25 cents, at the principal office, No. 137 Broadway, New-York; and sold by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, and by R. J. TAYLOR, Newport, and J. BALCH & SON, Providence.

64 DOSES

IN EACH BOTTLE—One Tablespoonful a dose—Three Doses a day—One bottle containing 64 doses lasts Twenty-One Days.

Price $1.00 per Bottle, or, Six Bottles for $5.00.

BRANT'S PURIFYING EXTRACT

It is now put up in **QUART BOTTLES**, and is of *the same medical strength and efficacy as that in the small bottles.*

The great superiority of THIS PURIFIER over SARSAPARILLA and all other similar medicines, *may be* easily made to be understood from the following facts: FIRST—because it not only possesses, as portions of its medication, the PURE ESSENCE of

Sarsaparilla, Yellow Dock,

Cherry and Sassafras Barks,

more strongly, more powerfully concentrated, and larger quantities of each of these purifiers in each bottle of it than can be found in any bottle of medicine, called *Extract of Sarsaparilla*; But, SECONDLY—because **This Purifier** *also possesses* the medical *efficacy and healing virtues of several other*

Roots, Barks, and Vegetables,

the PURIFYING *properties of which are greatly superior to Sarsaparilla, and when these are compounded with Sarsaparilla, Yellow Dock, Cherry, and Sassafras*, they make *this medicine the most certain and active* **Purifier of the Blood** *in the world.* So true is this, that *to have* every *desired medical effect, the Dose is*

Only One Tablespoonful, *three times a Day.*

But it is not so with Extract of *Sarsaparilla*, for in consequence of its *medication* (*in large bottles*) being so much **weakened and reduced the Dose of Sarsaparilla has to be Two, Three, or More Tablespoonfuls**—Three, Four, or **More than** a Day, to have any *medical effect*; and as a bottle of sarsaparilla only holds *sixty-four spoonfuls*, therefore, *as many spoonfuls as a dose, and so many doses a day, will use up a bottle of it in*

Four, Five, or Six Days,

which shows that a *bottle of* **Brant's Purifier**, will last from **Twelve to Sixteen** DAYS *longer than a* bottle of Sarsaparilla, and if its daily medical efficacy (*in small doses*) be as PURIFYING and HEALING as the daily (*large doses*) of **Sarsaparilla**, then it PROVES that ONE bottle of this PURIFIER is worth *Three, Four, or Five times* more than a bottle of **Sarsaparilla**.

The above comparison does not yet show the *great difference in value between the medical efficacy* of BRANT'S PURIFIER and **SARSAPARILLA**. This will appear by the certificates of cures in *Brant's Pamphlets*, showing that

ONE BOTTLE OF BRANT'S PURIFIER

has in one *efficacy*, and *cures more impure blood disease*, than

TEN Bottles of Sarsaparilla.

Therefore, ONE BOTTLE of PURIFIER sells for ONE DOLLAR, *One Bottle of Sarsaparilla* should sell for **Ten Cents.**

CANCEROUS SCROFULA.

Mr. J. B. HASKIN of *Rome*, Oneida Co., N. Y., who was *cured of* Scrofula in 1846, swore to the *facts as* related below in an action in the SUPREME COURT in the *City of New York*, on the *26th of December, 1849*, under the following circumstances:—

A person in the *City of New York* had manufactured and vended a *spurious* article of medicine, calling it BRANT'S INDIAN MEDICINE, in *imitation of the genuine medicine.* He was *prosecuted* to obtain damages, in the Supreme Court of the City of New York, and the case was *referred by the Court* to J. B. BOSWORTH, Esq., an eminent Lawyer, as *Referee* to take the testimony. The defendant pleaded in *mitigation of damages*, that the Proprietors of Brant's Medicine had *in some cases* published FALSE STATEMENTS of *cures*, and thus had committed a *fraud* on the public, and, *therefore*, was not entitled to damages. The case of Mr. *Haskin* was selected as *being false*, and Haskins was sworn as a *witness* in regard to the FACTS as published, and his *testimony* MORE THAN SUSTAINED *the publication.*

Mr. HASKIN said, I am well acquainted with Brant's Purifying Extract—have used it for *Scrofula*. About three years since, I was very badly afflicted by it; I was attended by several doctors—they all told me I could not live—that no medicine could cure me. In consequence of such information, for two months before I used *Brant's Purifier*, I took no medicine. When I commenced using the *Purifier* I had been confined to my bed a long time; I could not raise my hand to my head; my neck was so sore in front from one ear to the other ear was so eaten out round it, that it could be lifted up out of its place, it only holding by a piece at the top; a hole was eaten through my windpipe, so that my breath passed in and out at the hole; on my shoulder was an ulcer as large as my hand, another was under my arm equally as large, which had eaten through my side, so that my body could be looked into; an ulcer on my arm extended from my shoulder to my elbow which had eaten to the bone; I had several other ulcers also. I used *Brant's Purifier* in small doses, the *first bottle lasted eleven days.* I was to touch I only took two-thirds of a spoonful at a dose; that bottle so strengthened me, as to enable me to get out of bed; the *second bottle* I took the full dose (a spoonful), which so strengthened me and healed my sores, so that I was able to go to Rome Centre, where I got the third bottle; this bottle HEALED ALL MY ULCERS, but three small sores about as large as the end of my thumb, and I then worked some at chopping wood. I used *Six Bottles* more, which made a PERFECT CURE. —*As related in its good health.* FOR FULL PARTICULARS, SEE BRANT'S PAMPHLETS.

Would soon be in a Grave.

Mr. WILLIAM D. JENNINGS, a merchant at *Pierpont Centre, Ashtabula county, Ohio*, wrote to us, October 2, 1848, and related a cure of CONSUMPTION which the use of *Brant's INDIAN PULMONARY BALSAM* had effected in Mr. WILLIAM CROCKET, of an adjoining town. He said Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting monster, *Consumption*, had taken fast hold on its victim, and was so destroying and debilitating his body, that he was a mere skeleton. He was given up by his physicians and all friends, as one who would soon be in a grave. But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of only *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclenched the hand of the destroyer, and restored Mr. Crocket to health, and he is now a *healthy, hearty, rugged man!*

S. D. PANN, Esq., *merchant and postmaster at Jefferson*, an adjoining town, wrote to us about the same time, and stated that he was acquainted with Mr. CROCKET, and testified to his CURE, and all the above named *facts*.

Could not Live a Day longer!

Messrs. E. B. CALDWELL & CO., of *East Oswego, Oswego Co., N. Y.*, respectable druggists, wrote to us: "We have just heard, through Mr. Whiteman, a respectable citizen of this place, of an important cure of *Consumption*, which BRANT'S INDIAN PULMONARY BALSAM has produced on the wife of an acquaintance of his, who resides in the town of Palermo, in this county. She had been long confined to her bed, and was so dangerously diseased, that her friends believed it impossible for her to *live more than* ONE DAY LONGER. But, when all other hope ulti-[?] failed, she commenced taking *BRANT'S PULMONARY BALSAM*, and its medical efficacy has raised her from a DYING BED, so that she is now *going about and attending to her domestic household affairs and duties.* She acknowledges, and it is very evident, that she is indebted to BRANT'S BALSAM for her recovery from a long, severe, and dangerous sickness; and her friends and neighbors consider that medicine invaluable."

RAISED FROM THE GRAVE.

Messrs. PRATT & FOSTER, *merchants, of West Cornwall, Conn.*, said *BRANT'S BALSAM* had effected cures of such hopeless cases of CONSUMPTION in their town, that now no other cough-medicine could be sold there; that it *had raised some as if from the GRAVE*—some that physicians and all the friends said MUST DIE! One gentleman, in particular, was so far gone, that his physician told him it was useless to take any more medicine. He then, when no hope was left, began to take BRANT'S BALSAM—got WELL—and is now *as well as ever he was!*

Many Consumptions Cured.

Mr. S. H. CLARK, merchant, *Clyde, Wayne county, N. Y.*, wrote to inform us that BRANT'S PULMONARY BALSAM sold readily at Clyde, and said: "If the statements of some of our most respectable people, and personal, visible knowledge, can be relied on, its medical virtues have cured many consumptive persons, several of whom I am acquainted with, who were so hopelessly sick as to be considered, by physicians and all friends, past a possibility of cure; and yet, the facts are, BRANT'S BALSAM has restored them to PERFECT HEALTH."

LUNGS BLED—MUST DIE!

Mr. Z. S. TERRY, *merchant, Byron, Genesee county, N. Y.*, wrote, August 4, 1848: "BRANT'S MEDICINE is doing wonders here. It has cured a man of Consumption that all the physicians had said *must die*. When he commenced taking Brant's Medicine, he could not raise his hand to his head; he *bled at the lungs*, and every symptom seemed to indicate that he must die; but, astonishing to all, he is now able to labor, and rides all over the county. He used *only five bottles*. It has also cured a young lady of Consumption in Orleans county, which her father says no doctor could cure."

Mr. MILLER, a merchant of the same place, has certified to the truth of the above statement.

Was believed past Cure!

Mr. CORNELIUS R. SMITH, merchant, *Coffee Centre, Erie Co., N. Y.*, January 16, 1849, said: "Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly all sold, and I want immediately another supply, for they sell more rapidly, and give better satisfaction, than all the other medicines we have for sale. The *Pulmonary Balsam* has raised a lady here from a bed of dangerous and severe sickness, which all the doctors had given up as INCURABLE. They said she must die with a *Consumption of the Lungs*. After all had pronounced the case HOPELESS, she commenced taking BRANT'S BALSAM—and now she is well."

CHRONIC DYSENTERY,

and SUMMER COMPLAINTS, in children or grown persons cured without any *failure* whatever. Also—

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by that child-destroying complaint, when teething in warm weather—*Cholera Infantum*, or what is called SUMMER COMPLAINT—if "BRANT'S PULMONARY BALSAM" be administered to the child. It should, however, in such cases, be used in *twice as large* potions as the directions on each bottle prescribe, until the complaint is checked.

LIFE ASSURANCE.

ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, $150,000.

Safety—Stability—Economy.

THIS long established and well known company having organised a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulation for the payment of losses upon life assurance only, is prepared to issue policies on lives at rates materially reduced from those charged by the mutual companies, and as low as is consistent with ultimate safety. The system adapted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum and no more; and not to require a larger premium than is actually requisite for the purpose, with the promise of returning, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is attended with none of those vexatious contingencies which are inseparable from the mutual system; it is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, or upon the party's arriving at the age of 40, 45, 50, 55, or 60, at his option; in either case free from the claims of creditors. The usual extra risks will be assumed by the company at reasonable rates.

JOHN H. SMITH'S RENOVATING OINTMENT AND HORSE RENOVATING POWDERS.—The author of our existence has caused to grow spontaneously, throughout the world, such vegetable properties as will at once cure, when properly applied, all curable diseases. The proprietor of these truly valuable Medicines might fill a volume with Certificates and Testimonials in favor of his articles; but, considering such puffs wholly useless, since they are so readily manufactured, and made use of to such an extent to palm off some useless trash upon the public, I shall, therefore, state at once, the various diseases that can be speedily cured by these Invaluable Horse Renovating Powders, viz:—Glanders, Hidebound, and Horse Distemper. It also carries off all gross humors, and purifies the blood. It is also a safe and certain cure for the HEAVES; it will also cleanse, at once, the stomach and maw from bots, worms, &c., and again restore the stomach and bowels to healthy action.

SMITH'S RENOVATING OINTMENT is an invaluable remedy for horses, in the cure of the following diseases: Fresh Wounds, Galls of all kinds, Sprains, Bruises, Ringbones, Poll Evil, Wind Galls, Sprains, Sweeny, Fistula, Strains. Lameness, Foundered Feet, Cracks, and Scratches.

The above articles are to be had in most of the Cities and principal Villages throughout the United States, and the Canadas.

Price, 25 cents per box for the Ointment; 50 cents for the Horse Renovating Powders.

ONLY $25.

FOR A HOMESTEAD.

60 FARMS worth over $10,000, and 6,000 Lots, to be distributed among 600 Subscribers.

TO supply the demand for the Lots and Farms, I have laid out another tract, at LAKELAND, adjoining the Long Island Railroad and the land already sold at Hermanville, to be of the same size, and disposed of and divided among the purchasers in the same manner as those recently sold there, with 60 Farms instead of 22.

I have been induced to do this from the great number of persons wishing to purchase these Lots and Farms, as the improvements in that part of the Island are constantly increasing, and large numbers of persons have now become interested in those lands. This additional tract is in every respect equal to the other, and at the rate they are now being taken they will all be sold in a few weeks. About 600 shares are now subscribed.

Each subscriber is entitled to 8 Lots, 25 by 100 feet, lying together, or a FARM of from 4 to 20 acres. The shares are limited at $25—payable, $5 when subscribed for, $5 on or before the day of distribution, and the balance in monthly instalments of $3.

The lots are situated in the Village of LAKELAND on the Long Island Railroad, County of Suffolk, and 48 miles from the city of New York, where handsome buildings are erected, and the Railroad Company contemplate making a large depot for the termination of the early and late trains between that place and Brooklyn. It is one of the healthiest places in the United States, and within one mile of Ronkonkoma Lake, a beautiful sheet of water about three miles in circumference, of singular transparency, and of great depth, with an abundance of fish. The Village is but 4 miles distant from the great South Bay, which is 6 miles wide and 40 miles long, abundantly supplied with oysters, clams, and fish of various kinds.

These lands will produce as much per acre, with the same cultivation, as any land within fifty miles of the city of New York.

Several gentlemen of the first respectability who have lately visited Lakeland and examined the crops then growing there, declare that the wheat, rye, corn, potatoes and garden vegetables, are equal to any they have seen in any part of the country, proving conclusively that the soil is capable of producing, and that to the highest perfection, all that the agriculturist can wish or desire.

Wheat of the same quality, which grows here luxuriantly, was raised by Mr. Samuel Thompson, of Setauket, last year (about 8 miles from his place) who received for the product of a little more than two acres, $160.

Lakeland Station is located on the borders of the Long Island Railroad, whence cars run several times a day to Brooklyn and New York.—The surface of the land is smooth and level, and the surrounding country is perfectly healthy, and within a few miles of the place, highly cultivated and valuable, having been settled for more than a hundred and fifty years, and where similar lands sell at from $60 to $200 per acre.

Apply to CHAS. WOOD, Stationer, 171 John street, near Pearl, N. Y., who will receive remittances and forward receipts therefor by return of mail. They will also gratuitously furnish maps and pamphlets of the property, and cheerfully give such other information as may be desired.

I also desire to say that I have good FARMING LANDS West of my Village Lands, which I will sell in five-acre lots and upwards, at $20 per acre.—These lands are well situated for farming and gardening purposes, in every respect; and having the advantage and privilege of Railroad, when cleared and cultivated, they will be equal to any land on the Island, and equal to that which, in the vicinity of all the old villages and settlements of Long Island, sells for $50 to $200 per acre. CHAS. WOOD,

117 John street, N. Y.

☞ References as to the quality of the lands can be made to Hon. Henry Meigs and Gen. Chandler, of the American Institute, Rooms 351 Broadway, N. Y. C. M. Saxton, publisher, Fulton street, N. Y.; B.
